

## GENERAL DEFINITIONS

### Article 1.1.1.1.

#### **Approved**

means approved, accredited or registered by the *Veterinary Administration* for export purposes.

#### **Case**

means an individual animal [affected by an infectious or parasitic disease] infected by a pathogenic agent listed by the OIE.

#### **Compartment**

means an autonomous epidemiological entity defined on the basis of either geography (*zone*) or management (*enterprise*) for the purpose of *international trade*.

#### **Enterprise**

means one or more establishments with an integrated system of animal management forming an autonomous epidemiological entity.

#### **Free [enterprise] compartment**

means [an enterprise] a compartment in which the absence of the animal pathogen causing the disease under consideration has been demonstrated by all requirements specified in the *Code* for free status being met.

#### **Milk**

means the normal mammary secretion of milking animals obtained from one or more milkings without either addition to it or extraction from it.

#### **Milk product**

means the product obtained by any processing of *milk*.

#### ***Products of animal origin intended for use in animal feeding***

means meat-meal, liver-meal, bone-meal, blood-meal, feather-meal, pork fat, milk and *milk products* when intended for use in animal feeding.
